

Soaring Eagle Vacation Homes

Alaska Recreational Adventure Living at its best...

Everyone who has ever ventured north to Alaska knows there is nothing more spectacular and offering more fishing and adventure than the central Kenai Peninsula.

Soaring Eagle now offers Alaska's first private, oceanfront, vacation homes in a Common Interest Community (Condominium) setting of up to twelve condominium home units to dedicated Alaska adventurers with the desire to own a second home on an affordable basis without the endless rigors of managing and maintaining a second home from a distance.

Soaring Eagle Vacation Homes are one, two and three bedroom four season homes set in a quiet, beautifully landscaped and well maintained location featuring one of the most spectacular views in the entire State of Alaska. Enjoy the vista of Mount Redoubt and Mount Iliamna from your own ocean front home.

These individual homes (detached condominium units) are designed for those that wish to live on the edge of the wilderness without the hardships associated with it. Soaring Eagle Homes have breathtaking views which are interrupted only by the soaring eagles gliding before your eyes. The homes are graced by regularly visiting moose, often with their young ones.

The Soaring Eagle Vacation Homes property not only features the finest Alaska salmon and halibut fishing out the front door and on nearby rivers and streams but also affords ready access to world class clam beaches and convenient, nearby, boat launch facilities. When you're ready for something more you may choose to kayak with the sea otters....hike almost endless wilderness trails.... mountain bike, canoe or horseback ride the beaches.

Soaring Eagle Vacation Home property is managed by the Homeowners Association and it's property management consultants all sharing your same concern for perpetuation of one of the Kenai Peninsula's best tended properties.
